

**Three-axle dolly centre-axle dump trailer Type: TransMaxx TMR34**

32 - 34t permissible total weight

**System advantages:**

- superstructure made of aluminium
- high payload and loading volume
- Excellent run-on characteristics, even at high speeds
- Forced steering of the last axle directly coupled to the dolly trailer
- Lighter tractors can safely move them too
- Drawbar load up to 4 tonnes
- Low-pressure tyres up to 26.5" possible, unrestricted on-field ability
