

Dolly trailers

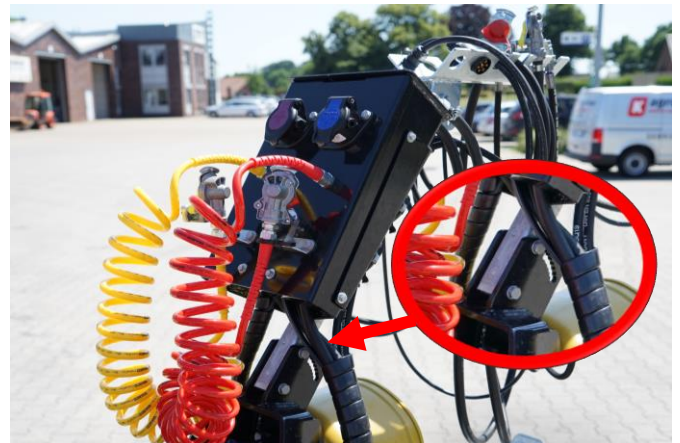

14to or 22to permissible total weight

Type: EAD14

System advantages:

- one-/ or double axle version available
- weight-optimized in frame design (fine-grained steel)
- slim drawbar with K80 coupling for max. turn of the wheels
- series-mounted hydraulic support-leg allows parking on-load
- height-adjustable and articulating hose cabinet for all supply lines allows adapting to different trailer dimensions (front overhang)
- adjustable fifth wheel plate (JOST)

Type: TAD22
